Chicago, IL – April, 2009 - [PositiveVision](#), a leading provider of information technology software for [manufacturing businesses](#) in the greater Chicago area has announced that they now provide *doc-link* by Altec, Inc.

doc-link provides seamless integration with the Sage family of products and allows users to go paperless in regards to accounts payable, accounts receivable, sales order processing and other applications. It reduces costs by automatically archiving and filing documents electronically; saves time by eliminating hours previously allocated for filing, copying and preparing documents; and streamlines operations by giving visibility, access and control of documents to specified users. "We are excited to be able to provide this new solution to our clients," stated Robert Baran, President of PositiveVision. "Not only does it save our clients time and money, but it saves the environment by greatly reducing paper." He further states, "Here at PositiveVision we have made a commitment to do right by the environment by going green, and can't wait to help our clients do the same."

About PositiveVision

PositiveVision is one of the leading providers of information technology software for manufacturing businesses in the greater Chicago area.
